**HOW TO USE**

**NOTE:** The best way to clean a grill is to start while the grilling surface is warm, but wait until the surface has cooled enough that it will not cause any damage due to the heat.

1. Turn off the grill and ensure that there is no visible flame.
2. Wait for the grilling surface to cool down for a while.
3. Fill a container with soapy water and soak the grill brush before cleaning.
4. Use the grill brush and brush the grill in the direction of the grates to remove grease and food residue, etc.
5. Soak the grill brush as needed while cleaning the grill.
6. Finish the cleaning process by using a wet cloth to wipe off debris in the grill.

**MAINTENANCE**

1. Do NOT use this grill brush right after you turn off the grill.
2. Clean the brush after each use.

**REPLACE THE BRUSH HEAD**

1. Use a screwdriver to unscrew and remove the old brush head.
2. Align the screw holes on the new brush head with the holes on the handle.
3. Securely tighten the new brush head on the nylon base.

 This product's packaging is made from environmentally friendly material and can be disposed of at your local recycling plant.
